VOLUME 49 NUMBER 1

January 2010

Co-Presidents' Message:

Dear Members:

Happy New Year to All! We hope you are newly energized and ready to join in our activities.

Our Program Planning meeting/ holiday party was quite productive, producing recommendations for a review of the LWVUS position on agriculture and two suggestions for Advocacy Priorities: voting rights (and full representation) for Washington, DC residents, and the Equal Rights Amendment.

Our next board meeting will be on February 3rd, at 7 pm, at the Vogelson Library in Voorhees, and we want to remind you that all members are welcome to attend. We are in the process of planning for the Callathon, for Running and Winning, and for our Annual Meeting, and we welcome (and need) your help. We are also in need of volunteers for our Budget Committee and would like a committee to review our by-laws.

We also hope to lend our support to the 2010 census. Please do encourage everyone you know to respond to the census form, which is expected to be much simplified this time around.

Mark your calendars: TUESDAY, March 2nd General Membership meeting, special notice of which will include a list of our committees & a request for your ideas.

Here's to a successful 2010, both for the LWVCC and for each of you.

[Back to contents](#)**LEAGUE, GROUPS ISSUE REPORT ON OBAMA ADMINISTRATION'S ETHICS, LOBBYING
& TRANSPARENCY REFORMS***Call on Administration to Take on Public Financing, FEC Reforms*

Washington, DC – The League of Women Voters and other groups today issued [a report](#) grading the Obama Administration's first year of achievements in ethics, lobbying and government transparency.

“The Obama Administration took extraordinary steps forward in 2009 – adopting the strongest and most comprehensive lobbying, ethics and transparency rules and policies ever established to govern its own activities” said Mary G. Wilson, national president of the League.

“At the same time, these achievements are only the essential first steps,” Wilson stated. “We call on the Obama Administration to continue to lead in changing the way business is done in our nation's capital,” added Wilson. “2010 is the time to tackle the critical reforms that will clean up the corrupting effects of campaign money throughout our government,” she said.

“The administration's government reform agenda this year must focus on the reform and enforcement of the nation's campaign finance laws. The League believes that this means: Repairing the presidential public financing system; Establishing a new public financing system for congressional races; and Fundamental reform of the Federal Election Commission (FEC),” stated Wilson.

“The FEC is failing as an enforcement agency just as the nation is preparing for the 2010 elections. As a start, we urge the President to use his appointment power to put the agency on a better path,” she said.

The [report card](#) issued by the League, Common Cause, Democracy21 and U.S. PIRG details seven areas in which the administration has implemented government reforms and provides a grade for each area.

- Revolving Door Lobbying Ban, A
- Open Government, A
- Reverse Revolving Door Restrictions, A
- Lobbyist Gift Ban, B
- Preventing Lobbyists from Serving on Advisory Boards, B
- Restrictions on Seeking Stimulus Funds, B
- Restrictions on Seeking Financial Bailout, No Grade

Instate Tuition Consensus

After a brief round of consensus meetings and input from many local Leagues, the LWVNJ was able to determine a consensus on the topic of instate tuition for unauthorized immigrants. The position is:

The League of Women Voters of New Jersey supports extending instate tuition to unauthorized immigrants who graduate from NJ high schools and are admitted to NJ's public institutions of higher education.

In addition, if the state funds private higher education for New Jersey students, the League supports including unauthorized immigrants who would qualify for instate tuition at par in the funding formula for private colleges and universities.

Explanatory Statement

The League position is informed by the 1982 US Supreme Court decision (*Plyler v. Doe*) which required equal educational access without respect to immigration status through grade 12. The League believes that equal educational access should be extended to New Jersey's unauthorized immigrants by allowing them to qualify for instate tuition at New Jersey's public colleges and universities.

This position is founded on the principles of:

- Fairness for children who came to this country not on their own but with adults, and
- The well documented social benefit of educated individuals in society.

Several conditions that were explicitly explored with respect to their impact on support for instate tuition were acceptable to League members, but the consensus was that they were not mandatory:

- Instate tuition should be limited to students who have attended three years of New Jersey's high schools. Note that the support is for some length of attendance, not necessarily for the three years exactly that are required in the 2009 proposed legislation.
- Requiring an affidavit that the student was applying for legal status, or would do so when possible, and protecting the full confidentiality of all immigration status records at the colleges.
- Other conditions received less support than those above.

New Jersey now contributes to the Independent College Fund of New Jersey (ICFNJ) which in turn provides funding for private colleges and universities. The League's consensus does not address the details of any specific funding mechanism and does not entail support for public funding as such. Instead, if the state funds private colleges and universities based on New Jersey student enrollment, then we support including New Jersey unauthorized immigrant students in each school's enrollment count, so long as the unauthorized immigrant student would have met the instate tuition criteria set by New Jersey's public colleges or universities.

=====

Unlike many positions, this one was almost immediately put to use, since instate tuition was a hotly-debated idea in the lame duck session of the legislature. Activists from the League, the New Jersey Regional Coalition, and other groups were present at the statehouse for hearings, rallies, and meetings with key legislators for several days. Unfortunately, the legislation ultimately failed. Since Governor-elect Christie is opposed to it, we do not expect to see motion on this bill for a long time.
